Northeastern Second Quarter Region Milk Production 2014

HARRISBURG, PA – The USDA's statistical branch, National Agricultural Statistics Service (NASS) has released national milk production numbers for the April-June quarter of 2014. States included in the Northeastern Region are: Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island and Vermont.

These numbers include: the number of cows, the average amount of milk extracted per cow, and complete milk production by pound from April through June of 2013 and April through June of 2014. Pounds of milk produced during the second quarter of 2013 and 2014 remained the same at 7.6 billion pounds.

Nationally, milk production increased 2.0% for all major dairy operating states.

For more information, and a copy of the full release, please visit www.usda.nass.gov.
